## VAN HEES PRODUCT INFORMATION

### Zartin

Zartin is a new, high tech multifunctional blend of additives free from phosphates designed to increase yield and add tenderness and succulence to all types of meat and meat products. Not only does it improve juiciness & tenderness of meat but slows down the growth of undesirable bacteria effectively extending the shelf life of fresh and cooked meat products.

### Bombal

Used to extend shelf life by controlling pH-value and keeping the meat fresh and colour stable. Due to special organic consistency, it can be used for all kinds of meat and poultry products
